Read:- Government of Gujarat, New Industrial Policy – 2015.

Preamble

Gujarat's economy is today at such a stage, that from here on it can move on an accelerated high-growth trajectory. The State of Gujarat has always been at the forefront of economic growth in the country. It is envisaged that development vision of Gujarat will continue to emphasize on integrated & sustainable development, employment generation and inclusive growth.

The state is geared towards development of robust infrastructure that will form the base for spurring a high growth. The state has a proven track record of attracting large number of investments and as a result, Gujarat has become the most sought out investment destination in India. There has been a balanced development in the field of agriculture, manufacturing and services, which has increased livelihood opportunities in the state. Gujarat accounts for more than 35 percent of total chemical production in the country. The available raw material with the State tends to initiate promotion and development of plastic industries on large scale.

The industrial policy aims to encourage the manufacturing sector to upgrade itself to using cutting edge technology and innovative means to significantly add value, creating products that command a niche position in the global markets. Building backward and forward linkages in the focus sectors will help in creating a strong multiplier effect in the economy, which would boost consumption and growth. Plastic industry is identified as specific sector focus to promote manufacturing industries. Investment in this sector will create vast opportunities for ancillary and downstream industries in the small, medium & large sector in the State. For the State Government, Plastic industry will be focal point for overall development of Gujarat State.
